

### **The History**

Freckles Frozen Custard was started in May 2000 by two college friends Don McKinney and James Clary. After experiencing the incredible treat known as Frozen Custard at Ted Drewes in St. Louis, the friends decided that Tulsans would like the product as much as they did. After much research and recipe testing, James, Don and their wives, Lisa and Melinda, opened their first Freckles in Tulsa, Ok on May 1st, 2000. A second store was opened in Owasso, Ok in June of 2001. The response to our product has been tremendous and for that we are grateful. Thank you Oklahoma for all your support!

### **The Product**

Freckles Frozen Custard is made from only the freshest, premium ingredients. It is made as you watch, giving it that old fashioned, homemade ice cream taste. Our dairy products come from the best dairy farms in the Midwest and are shipped directly to Freckles ensuring that you have the freshest Frozen Custard in Tulsa. Our exclusive Vanilla Frozen Custard is made with a secret blend of Tahitian and Madagascar Vanilla beans. We use no artificial or imitation flavorings in our blend, giving Freckle's Frozen Custard a flavor profile unrivaled in the custard business!

### **What is Frozen Custard?**

Frozen Custard is a gourmet ice cream treat that first originated on Coney Island. Frozen Custard must contain at least 10 percent butterfat and 1.4 percent egg yolk. Typically, Frozen Custard is made hourly and served at 18 degrees whereas traditional ice cream is made at 20 degrees, flash frozen to minus 10 degrees, and stored at minus 20 degrees. During the freezing process the volume of ice cream can be increased (often doubled) by the beating of air into the mixture. This creates ice cream with a "weak" flavor profile and coarse texture. Freckles uses a special machine that creates a frozen dessert with very small ice crystals. Smaller ice crystals, low air content, and freshness translate into the smoothest, tastiest frozen dessert you have ever had!

### **Business Partnerships**
